

Available Rental Properties

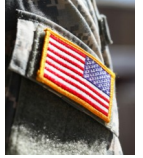

We at the SIUC Veterans Center realize that the transition from the military and/or deployment can be difficult. One of the most difficult things can be finding a place to live before starting your college career. To help aid student Veterans looking for housing, we have compiled a listing of renters/leasers in the local area. This is not a complete listing, and the information presented in this guide is for reference only and is not guaranteed. SIUC is not associated with any of the companies on this guide and does not profit in any way from you choosing to rent/lease from them.
